## STAINLESS STEEL RECTANGULAR DISPLAY UNITS

### DESCRIPTION

- High humidity, low velocity air flow thru cabinet to maximise product quality
- Heated front and top glass panels to refrigerated units to ensure zero sweating of glass even in high humidity conditions, double glazed end panels
- Self closing double glazed sliding rear doors with one way mirror finish to interior
- Rated to ambient temperatures of 32°C
- Self contained refrigeration system - R134A with adjustable temperature control
- Rear ventilation only required on refrigerated units
- Stainless Steel No 4 finish exterior with mirror trims to glass panels and interior
- Glass shelves provided in refrigerated and ambient models. Heated units have chrome wire shelves
- All shelves have either fluorescent or halogen lighting to all levels
- Heated units have a manual fill humidifier pan included
- All units supplied on castors and are suitable for plinth mounting if required
